Grade
BIOL 420
CHEM 662 or 663
CHEM 664

CRN ______ (it is student responsibility to fill this in. Look for course, instructor, and cr hrs in online schedule)

CHEMISTRY 669

Expectations of an undergraduate student applying to enroll in 2 cr hr of CHEM 669 research with a chemistry professor.

I will work a minimum of approximately 8 hours per week per 2 cr hr enrollment and 12 hours per week per 3 cr hr enrollment, beginning week 1 of the semester and extending throughout the semester. Initials
The majority of my time in the laboratory will occur during the work week. Mon-Fri, 8am-5pm Initials
I will not work in the laboratory unless my faculty advisor, a graduate student, or a postdoc is present. Initials
I understand that my performance in the course will be evaluated according to the research goals set by my faculty advisor. Initials
I will attend group meetings. Initials
I will undertake to inform my supervisor of progress as it occurs. Initials
I understand that a few weeks of hard work at the end of the semester after underperforming through the bulk of the semester will not earn a good grade. Initials
I will be graded according to the accepted university practice S = Satisfactory U = Unsatisactory (Failing work) I = Reporting and paperwork incomplete, experiments still to be performed, etc. Initials
Student name (print)
Student signature
Date Semester
Supervisor name

Please complete and return to the Chemistry Dept. office prior to the end of the first week of the semester.
