

# Chrome River User Manual

## SYSTEM REQUIREMENTS

The following standards are recommended for each client computer accessing the Chrome River application. The application runs entirely within the web browser and does not require any additional Chrome River application code.

Most modern web browsers and operating systems will be able to access and operate the application. However, Chrome River recommends that the user's preferred browser be 3.6 (v)-2 Web Browser

While other web browsers may also operate the Chrome River application successfully, the following are recommended for use in their most recent versions:

<b>Microsoft Internet Explorer</b>	Version 11.0 or higher	<a href="http://www.microsoft.com/windows/products/winfamily/ie/default.aspx">www.microsoft.com/windows/products/winfamily/ie/default.aspx</a>
<b>Google Chrome</b>	Version 51.0 or higher	<a href="http://www.apple.com/safari">www.apple.com/safari</a>
	devices	

\*Chrome River does not currently support the Safari browser in "Private" mode. Users must turn off Private mode before logging in to the application.

## Recommended Operating Systems and Browsers

Operating System: Kitkat 4.4.2 or higher  
Browser: Chrome v.51 or higher
